This list of registrants is published in the hope that it will help you know and recall every person who was present.

Do you count 96 names on this list? If you know of others who were present but did not register, please send their names to our secretary, Mrs. Bill Peterson, Leonardville.

This list will help those who have copies of the mimeographed "family tree" to fill in additional names. If you can add other names and birthdays for the mimeographed "tree," please send them to Merton Zeisset, Box 353, Attica.

Mrs. Ray Zeisset, 2443 Sewell, Lincoln, Nebr., would like these facts about as many in the family as you can supply the information for: full name, birth date, birth place, present residence, and occupation. Also, full name of husband or wife, with the same complete information about them. You will note, if you have a copy of the mimeographed "family tree," that there is no mention of the husband or wife, and that is a serious omission in any family tree.

If you have any information about relatives presently living in Germany, please send it to the Ray Zeissets, 2443, Lincoln, as they plan a trip to Germany next summer and want to visit any relatives they can locate.

Through an Alvin Zeisset who is a chemist in the Bureau of Vital Statistics in Washington, Paul Zeisset has recently uncovered some information about a Pennsylvania German family of Zeissets who trace their ancestry to an 1840 immigrant from the state of Baden in Germany named George Zeisset. The family is Mennonite (as our own grandparents were) and they have all been farmers and have lived in that one area, Lancaster County, Pennsylvania except this man who is a chemist and two who have come to Kansas, one in McPherson and the other in Hutchinson. They have also learned from a Pennsylvania Mennonite who recently attended an international Mennonite conference in Baden, Baden, Germany that there was a minister by the name of Zeisset present at that conference. The Pennsylvania Zeissets have known such name spelling variations as Zeisert but not Zeisset. We may yet learn some interesting things from this family in Pennsylvania
